Whether this list gives you more words to put in your dictionary using your own steno theory, or the suggested steno gives you another way to write these words or the shortforms enable you to write faster, we hope this list will be of help.

If you have benefitted from these entries, and you have entries of your own that you would like to share, please e-mail us your name and list of outlines so that we may put them in future articles for others to benefit from.
